

Surface Design Association Swatch Library

The Surface Design Association's Fabric Swatch Library is a collection of 12" x 12" fabric samples which demonstrate the wide range of fiber techniques practiced by our members. Contribution to our collection by members is ongoing.

The Swatch Library serves:

- As a promotional tool made available to members. The swatches provide a hands-on experience in addition to printed materials when promoting membership at related conferences, workshops, and events.
- As a promotional tool for our member artists and designers. A great way to have your work seen by a lot of people!
- As an educational tool in the classroom at colleges and universities.

We would love to have your contributions to the Surface Design Association's Fabric Swatch Library.
